

XV Symposium on Heat and Mass Transfer

The Committee on Thermodynamics

Polish Academy of Sciences
University of Technology Koszalin
Department of Energy

From September 16 to September 19, 2019, the Department of Energy at the Koszalin University of Technology under the auspices of the Thermodynamics and Combustion Committee of the Polish Academy of Sciences organizes the XV Symposium on Heat and Mass Transfer. We hereby invite representatives of universities and research centres whose activity is related to the broadly understood thermodynamics and power engineering to participate in the conference.

OBJECTIVE OF SYMPOSIUM

The aim of the Symposium is to participate in an exchange of views on current and prospective problems in the field of heat and mass transfer. It covers both the fundamental scientific aspects as well as the application areas. The offer of participation in the Symposium is addressed to specialists in the field of mass and heat transfer, scientific institutions and universities.

SCOPE OF THE CONFERENCE

The subject of the conference is related to the fundamental areas of the functioning of our country's economy. It strictly fits into the issues related to innovative technologies in the field of thermodynamics and energy, which are heard recently in official announcements of governmental bodies regarding the future of our economy. Among the specific topics, there are:

- thermodynamic problems,
- exergy issues,
- issues related to conventional and renewable energy sources and systems,
- convective heat exchange in compact and conventional heat exchangers,

SYMPOSIUM SESSIONS

The papers selected by the Scientific Committee of the Conference will be presented during plenary sessions.

The rest will be delivered during thematic sessions or displayed during poster sessions.

Papers, after selection and review, will be published in the journals: **Archives of Thermodynamics**. It is also planned to publish them in the **Journal of Mechanical and Energy Engineering** and to issue a "Book of Abstracts".

LOCATION OF SYMPOSIUM

The conference will take place in Kołobrzeg

IMPORTANT DATES

15.01.2019 – first registration

30.01.2019 – submission of abstracts (in doc/pdf format, one A4 page – please send only for sohamt2019@tu.koszalin.pl)

28.02.2019 – first term payment

30.04.2019 – submission of full paper and second term payment.
